INTERNATIONAL BIO RECOVERY CORPORATION ANNOUNCES NEW BOARD MEMBER

VANCOUVER, CANADA, August 29, 2007 – International Bio Recovery Corporation (“IBR”) (TSX-V: IBR) an environmental biotech company with a proprietary technology to convert organic waste into environmentally progressive soil fertility products, today announced the appointment of Henry J. Bow to the Company’s Board of Directors.

Mr. Bow is the President and Chief Executive Officer of the Company and has been an officer of the Company for nearly five years.

Ben Van Dyk, IBR Chairman says, “Henry Bow, in addition to his service as President and CEO brings a diverse and valuable background to the IBR Board. He has served on numerous boards, chairing key committees and developing and implementing strategic initiatives.”

About IBR

Located in North Vancouver, BC, IBR markets its technology products through the sale of licenses. The Company’s current and medium term focus is to further develop its marketing capacity to enhance technology license sales. The Company is committed to research and development to continue to improve the efficiency of its technology and the quality of Genica branded fertility products. It is further committed to developing a world wide marketing capability to ensure market acceptance of the fertility products.
